

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

1. (amended) A method comprising:
playing natural speech digital audio files; and
a user interface wherein a user can easily and quickly arrange these files
such that the most important files can be accessed with one “click” less important
with two “clicks”, etc.
2. (amended) The method of claim 1, wherein the user interface is
able to be used on portable devices in most “real world” environments.
3. (amended) The method of claim 2, wherein the portable device is a
Personal Digital Assistant.
4. (new) The method of claim 2, wherein the portable device is a cell
phone.
5. (new) The method of claim 1, further comprising:
a library of natural speech digital audio files available “on-line”.

6. (new) The method of claim 5, wherein the library is arranged in “conversational groupings”.

7. (new) The method of claim 6, wherein one of the “conversational groupings” are sentences one would need at a ball park.

8. (new) The method of claim 7, wherein one of the “conversational groupings” is the menu from McDonalds®

9. (new) The method of claim 2, wherein the user interface further comprises:

means for quickly removing files from the portable device in view of its limited memory.

10. (new) The method of claim 1, wherein a user may order a personalized phrase or sentence.

11. (new) A computer-readable medium having computer executable program code stored thereon, the program code comprising:

playing natural speech digital audio files; and

a user interface wherein a user can easily and quickly arrange these files such that the most important files can be accessed with one “click” less important with two “clicks”, etc.

12. (new) The computer-readable medium of claim 11, wherein the user interface is able to be used on portable devices in most "real world" environments.

13. (new) The computer-readable medium of claim 12, wherein the portable device is a Personal Digital Assistant.

14. (new) The computer-readable medium of claim 12, wherein the portable device is a cell phone.

15. (new) The computer-readable medium of claim 11, further comprising:

a library of natural speech digital audio files available "on-line".

16. (new) The computer-readable medium of claim 15, wherein the library is arranged in "conversational groupings".

17. (new) The computer-readable medium of claim 16, wherein one of the "conversational groupings" are sentences one would need at a ball park.

18. (new) The computer-readable medium of claim 17, wherein one of the "conversational groupings" is the menu from McDonalds®

19. (new) The computer-readable medium of claim 12, wherein the user interface further comprises:

means for quickly removing files from the portable device in view of its limited memory.

20. (new) The computer-readable medium of claim 11, wherein a user may order a personalized phrase or sentence.
